Our House

Lovingly run by Alexandra Lassnig for more than 3 decades, the ARLBERG STUBEN is situated in a unique and exposed location in the center of the sunny alpine village of Stuben.

Stuben was first mentioned in 1330 as a post station, "the Emperor's highest Stuben". According to tradition, the name derives from the term "Wärmestube" (warming room). Stuben was the last place for rest and refreshments before the Arlberg Pass and the last warming room for travelers, muleteers and carters during the long winters. The small village of Stuben nestles impressively against the Flexen and Arlberg passes - guaranteeing breathtaking views.

Unmistakable charm and personality enliven the small hotel and, of course, lots of love  from the hostess. At the Arlberg Stuben, tradition is combined with cozy, unobtrusive innovation.

"It always depends on the mood you leave a room."

– Alexandra Lassnig

Good Omen

Happiness in Love for 37 years

Sometimes life writes the most beautiful stories, and Denis and Sandra's is undoubtedly one of them. Their story began in the summer of 1987, when 16-year-old Denis and 17-year-old Sandra met in a lively nightclub in Poreč, Croatia. The two immediately felt a special connection - it was love at first sight.

Just three weeks later, as quickly and intensely as their love ignited, Denis and Sandra got engaged. A decision that felt absolutely right for both of them. Four years later, in 1991, they finally said yes to each other and began a life together full of love, harmony and mutual respect.

Their secret? A willingness to compromise. Over the years, they have learned that the ability to approach each other and find solutions together is the key to a strong and happy marriage. Together they have raised three wonderful daughters who reflect the happiness of this union.

Today they are an important part of the Arlberg Stuben, where Denis is the hotel director and Sandra works in service. Their love and commitment, both for each other and for the hotel, is also felt by the guests - a true role model for all those who believe in the power of love.

This story shows: Sometimes all it takes is one look to know you've found the person for life.

The Wedding Ceremony

Civil wedding ceremony

A civil wedding in the Lech area is also possible outside the registry office - for example on the mountain pasture.

It is also possible for foreign nationals to get married in Lech. The registry office in Lech will be happy to provide information about the respective legal situation and about which documents must be presented and where these can be obtained. If you are not resident in Austria, you should register at the Lech registry office.

Free wedding ceremony

We look forward to lovingly preparing our garden for your free wedding ceremony.

Wedding ceremony in the church of Stuben

The Roman Catholic parish church of Stuben am Arlberg "Unserer Lieben Frau Mariä Geburt", including the cemetery, is a listed building. The baroque nave has probably been a Marian chapel since 1218. Construction of a church began at the end of the 15th century and was consecrated in 1507 and elevated to parish church status in 1666.

Plant a tree

The custom of planting trees is a beautiful symbol of the beginning of a new life together. Originally, this tradition arose during the Thirty Years' War, when men were obliged to plant a certain number of trees before their wedding. Since then, the custom has evolved and today stands for growth, constancy and the path the wedding couple will take together.

A tree symbolizes life together, which - just like the tree - takes root, grows and flourishes. Planting a tree at the wedding lays the foundation for a future characterized by strength and cohesion. Every time the couple looks at this tree later, it reminds them of how their love grows and deepens with each passing year.

This beautiful custom not only unites the couple in a symbolic way, but also gives something back to nature. By planting a tree together, you are contributing to the preservation of the environment and helping to save a piece of our planet - at least a little bit - with love, happiness and a freshly planted tree.
